Who is eligible for service?

To be eligible for Roadside Assistance the licensed Vehicle and/or Trailer must be a Nominated Vehicle that is covered by the Customer's Roadside Assistance Cover.

When do benefits become available?

Roadside Assistance benefits (including Breakdown Towing and Extended Benefits) are subject to a 48 hour Waiting Period. New Customers paying the Fee via invoice will be eligible to receive Roadside Assistance services 48 hours after invoice payment has been received by RAC. When joining in a Breakdown situation upon payment of the Join on Road Fees and Fees, RAC will provide Roadside Assistance excluding Extended Benefits and Car Hire (post a Tow).

Note that a 48 hour waiting period applies to the Customer's new level of cover when the Customer upgrades their Roadside Assistance Cover. Any breakdowns that occur within the first 48 hours of the upgrade will be covered at the previous level of cover.

How Roadside Assistance can help?

In the event of a Breakdown where the Vehicle cannot be driven, RAC will assess and provide the appropriate service(s) detailed below within the Customer's cover limits. The below services are provided 24 hours a day, seven days a week in the Metropolitan Area and in Regional Centres, and as soon as reasonably possible in Country Areas, by travelling the most direct/feasible route from their base to the Breakdown location and return up to the below maximum distance limits. RAC will provide You with an estimated timeframe to attend a Breakdown in Country Areas at the time of booking where possible. Within the Metropolitan Area, there are no limits to the distance RAC will travel to provide Roadside Assistance.

Roadside Assistance Distance Limits		
Cover	Metropolitan Area	Country Area*
Assist	Unlimited	Up to 80km round trip
Absolute	Unlimited	Up to 200km round trip

* Country Area Roadside Assistance distance limit is measured as the distance driven by the RAC Contractor from their base to Your point of Breakdown and back to their base.

If an RAC Contractor is required to travel Excess Kilometres that exceed the above distance limits for the Customer's Roadside Assistance Cover, the Customer will be invoiced an additional Fee, which will be quoted upon request when the event is dispatched. If You are in a Restricted Area Location, there may be a delay in service

Flat Battery

In event of a flat battery, we will utilise our testing equipment to diagnose the battery condition. RAC will then either provide a jump-start or deliver and install a new battery, at the Customer's cost. Battery availability may be limited in Country Areas.

Out of Fuel

If Your Vehicle is immobile due to lack of fuel, RAC will provide You with up to 5 litres of regular unleaded or diesel fuel, at the Customer's cost, to enable Your Vehicle to be driven to a fuel outlet. In the event that fuel cannot be supplied (including LPG Vehicles) a Tow to the nearest fuel outlet will be supplied, within the Customer's Towing Limits, and any fuel purchased will be at the Customer's cost.

Wheel Change

RAC will replace a flat or damaged tyre with a suitable roadworthy spare wheel provided by You.

Where specialised anti-theft locking wheel nuts are fitted You must supply the tool to enable removal. If Your Vehicle is equipped with manufacturer's gel sealant RAC will provide assistance utilising the supplied repair kit. Wheel changing is limited to vehicles with a maximum gross vehicle mass (GVM) of 4 tonnes. If suitable tyres are not available, or where the surrounding conditions make it unsafe to fit a tyre at the Breakdown location, the Vehicle

will be Towed in accordance with the Customer's Towing Limits. Any special equipment or specialised Service Provider that may be required will be at the Customer's cost.

Roadside Assistance will not be provided if tyre impact damage has occurred as a result of an Accident and/or malicious damage due to the potential for mechanical damage to the Vehicle.

Lockout/Locksmith

If RAC is unable to unlock Your Vehicle or if the keys are lost, stolen, or damaged or the driver's door, fuel cap or ignition lock is damaged preventing the Vehicle from being mobilised or secured, RAC will provide one of the following services up to the Customer's Annual Entitlement Limit (subject to satisfactory proof of ownership shown):

- > Organise a locksmith to attend (see coverage limit below) or
- > Tow the Vehicle within Towing Limits to a motor dealer or other location (see Towing Limits table)

Locksmith service (limit one per year)

Assist	At Customer's cost
---------------	--------------------

Absolute	Up to the value of \$165
-----------------	--------------------------

Every attempt will be made to provide locksmith services as required, however they are dependent on availability. Attempting to gain entry to Your Vehicle by any other means other than a key or keyless transponder can result in damage to Your Vehicle. RAC and all RAC Contractors will not accept liability for any damage caused as a result of gaining entry or attempting to gain entry to Your Vehicle.

Minor Mechanical Repairs

RAC will provide limited mechanical repairs to mobilise Your Vehicle utilising the spare parts and supplies within an RAC Patrol vehicle. The cost of all parts and supplies will be invoiced to the Customer after completion of the service.

RAC prides itself on providing quality products and services. To achieve this we only supply and fit compatible parts that meet or exceed regulatory requirements, Australian

Standards and original manufacturer's specifications, this includes a combination of either genuine (OEM specific) or aftermarket (generic) parts depending on the application.

Breakdown Towing

If we are unable to get Your Vehicle going we will arrange for Your Vehicle to be Towed to a place of safety or repair within the Towing Limits outlined:

Roadside Assistance Towing Limits

[^] Metropolitan Area Roadside Assistance towing limit is measured from point of Breakdown.

^{*} Country Area Roadside Assistance towing limit is measured as the distance driven by the RAC Contractor from their base to Your point of Breakdown and back to their base.

The following maximum dimensions exist for Towing Your Vehicle, Caravan or Trailer and its load on the tow truck tray:

Length	Weight (GVM)	Width	Height

[§] Note outside the Metropolitan Area Towing availability maybe restricted over 2.5 tonnes

Additional Fees for Towing will be incurred and invoiced to the Customer after completion of service in instances of:

- > Your Vehicle, Caravan or Trailer and its load exceeds the maximum dimensions above;
- > Your Trailer or Caravan cannot be towed behind the Towing vehicle and exceeds the above maximum dimensions;
- > Your Vehicle, Caravan or Trailer requires additional kilometres to be travelled that exceed the above Towing Limits;
- > Your Vehicle requires Special Towing Equipment.

You can request a quote at the time of dispatch for the additional Fees, and the Customer will be invoiced after completion of Service Period.

If You are a BusinessWise Absolute Customer, RAC will contribute \$200 towards excess Towing charges. This benefit will be provided up to the Customer's Annual Entitlement Limit.

If You are Towing a Caravan or Trailer

If Your Vehicle breaks down when towing a Caravan or Trailer and cannot be mobilised at point of breakdown, RAC will provide one Tow covering Your Vehicle, and Caravan or Trailer (as applicable) within Towing Limits outlined in the Towing Limits table.

If Your Caravan or Trailer is disabled when being towed by Your Vehicle, Towing will be provided within Towing limits as outlined in the Towing Limits table. Should Special Towing Equipment or additional time be required in preparing for Towing, the Customer will be invoiced an additional Fee after completion of the service, quoted upon request when the event is dispatched.

RAC does not cover Your Caravan or Trailer for:

- > Extended Benefits described below;
- > Towing trailers with live stock or pets;
- > Relocation, agistment or temporary accommodation of livestock or pets; and

Please note the following Roadside Assistance Safety Policy of the RAC. The RAC recognises that the safety and health of the RAC, Customers and the public is paramount when mobilising a Vehicle. Where RAC suspects that the driver of a Vehicle is unfit or incapable of driving that Vehicle in a safe manner by reason of being under the influence of drugs, alcohol, or any other factor, the RAC may decide, at its sole discretion to:

- > leave the Vehicle immobile, or
- > mobilise the Vehicle (where that Vehicle is capable of being mobilised).

Where the decision is made to mobilise the Vehicle (and avoid any immediate safety and health risk) the incident may be reported by the RAC to the police. Roadside Assistance will not be provided when in the reasonable opinion of RAC it is deemed unsafe for an RAC Patrol or RAC Contractor to attempt, or continue attempting, to mobilise a Vehicle at a Breakdown.
