

# Driveway safety interactive worksheet

- Mel wants to play a game with her new puppy
1. Put a cross on the unsafe places. Mel should not play there
  2. Put a tick on the safe places for Mel and her puppy to play

## Teacher notes:

- Discuss the dangers of playing in a driveway, on the road and near a car.
- Students suggest why they decided to give the other places green ticks (safe places)?
- Which of the three safe places is the safest option? *The backyard with a fence is the safest place to play as Mel's new puppy can't go out onto the road.*
- Why is the backyard with a fence the safest place to play with a new puppy or even a ball?
