Applications close: 5:00pm on Friday 20 August 2021

Funding decision to be announced: Mid October 2021

Applicant Details

Applicant and key project details

LGA(s)

Project title

No more than 10 words

Project location

Project description

Brief description of the project, including duration, location, key project elements and purpose. Maximum two sentences.

Project duration

The duration of the demonstration/pilot period before removal/conversion to permanent upgrade where relevant

Category of fund

Nominate the category you are applying for:

» Category 1: Total project cost up to \$100,000

» Category 2: Total project cost more than \$100,000

Total project costs (including contingency)

Funding level sought

Amount sought from RAC Reconnect WA

Other funding sources

Please identify any other funding sources for this project (both internal and external, as well as any external in-kind contributions)

Key project contact

Name and job title/role

Contact phone number

Contact email address

Project Champion

Must be a person with an appropriate level of signing authority at your organisation, such as a Director.

Name and job title/role

Phone number

Email address

Project Summary

To help us assess your project, we need to understand its objectives, the desired outcomes and your plan to deliver it. Please keep each answer to less than 300 words.

Connecting Communities

What are the objectives for your project, including the specific community needs, opportunities and/or challenges that your project aims to address?

Please refer to any relevant data (community feedback, survey results, counts, etc) as supporting evidence. Please also outline how your project aligns with the Reconnect WA initiative objectives, to support safe, sustainable and connected communities.

How does your project respond to these needs/opportunities/challenges using innovative and/or low cost treatments, and what are the outcomes/community benefits the project is intended to deliver?

Please outline what your project involves, and why you feel it is a good approach to address the opportunities/challenges as a short term response.

What is your plan to involve the community, as well as stakeholders?

Outline how you intend to involve the community throughout the project, including where relevant planning, co-design and participation in delivery. Please also outline any activities that have been undertaken to inform the project or plans to engage / co-design with the community (including residents and businesses).

If the project, once delivered, is successful, is there a pathway to permanent change in the future?

Please outline any plans and time horizons for permanent upgrades. If the experience is successful, how can similar initiatives be incorporated into business planning to test ideas and demonstrate project benefits to deliver more people-friendly streets and public spaces?

Ability to Deliver

Describe your project team and governance structure, including your technical ability and any resources you will bring to effectively deliver the project.

What are the key milestones and schedule for the project?

Please outline a project schedule that details key milestones and delivery timeframes, including a high-level description of key project components and deliverables.

This should include identification of any approvals that are required, and a high-level plan to obtain these if not yet acquired.

What are the key risks you have identified with your project, and how do you plan to mitigate them?

Please outline how you intend to ensure the safety of the public throughout the duration of the project.

Value for Community

To help us better understand your project and how we can support it, we need to understand what project funds will contribute to, to deliver the stated community benefits.

Please provide a breakdown of the total project costings. This could include aspects such as design, materials, construction, art, monitoring and evaluation, community engagement, maintenance and contingencies.

What is your plan to monitor and evaluate the project to know if it was successful in achieving its objectives and the desired outcomes?

Please outline your proposed monitoring and evaluation approach to enable the determination of clear project outcomes and demonstrate broader return on investment. This should include what qualitative and quantitative data sources you propose to collect to determine this.

Please attach an image to use to represent your project. This may be used as part of a member vote.

Please attach any supporting information on your project. This could include:

- » A map of the project site (e.g. screenshot from Google Maps) with the project marked-up.
- » Images of the site to provide context, and potentially design ideas/drawings you have already produced.
- » A summary of any relevant survey or engagement results, workshop summaries, etc.

RAC would advise preparing applications in a separate document prior to submitting via the online form.
