

# RAC Risky Roads

## 2018 Scorecard

Risky Roads is WA's largest road infrastructure survey which asks the community to nominate dangerous roads and intersections around the State.

The results of the 2016/17 survey were released in February 2017. From over 6,000 nominations, 10 roads and 10 intersections were nominated as the most dangerous in metropolitan and regional WA.

The 2018 Scorecard is a progress report of the actions taken by authorities to address the road safety concerns raised by the WA community.
