Activity 4: Build a wheeled model with recycling
Design and create your own bicycle, scooter or skateboard using recycled materials.

Material ideas
» Paper
» Patty pans
» Paper plates
» Popsticks
» Straws
» Pipe cleaners
» Paint
» Glue

Draw a plan for your model and label the different parts and materials you will use.

What other materials can you think to use?

“‘It’s a good idea to think about the safety features of your bicycle, scooter or skateboard’
