

My decisions, my destination

Activity 2

In this video, Andrew enters the kitchen where Josh and Emily are talking and lets them know that he is going home. Looking out for your mates and speaking up in situations that feel unsafe is important. Think about your friends and the situations you have been in or might be faced with in the future and answer the questions below.

1. What do you see Andrew doing while he is talking to Josh and Emily?

2. What does Emily say to Andrew as he grabs the car keys?

3. Josh doesn't question or say anything to Andrew about his choices or behaviour. What might stop someone from saying something to a friend in this situation?

4. Andrew tells Josh and Emily that it is only his second drink of the night. What might make this a dangerous or illegal situation?

5. If you were in Josh or Emily's shoes, what could you say to Andrew to try and make him rethink his choices?

6. **Taking action** - If you suspect your friend might be over the drink drive limit and is intending to drive, write down a few things that you could say that might help them rethink their behaviour and choices.

Take it further - Visit the [Drink Driving information page](#) on the Road Safety Commission website. Describe what you have learnt about the consequences of drink driving.
