In January 2020, 629 of our members\(^1\) took part in a survey telling us how they move around and their priorities for government action to deliver transport options that are safe, more sustainable and better connect Western Australians and their communities now and in the future.

### Getting to Work/Study

**Modes of travel members currently use\(^2\):**

- **Drive a car**: 89%
- **Catch the bus**: 7%
- **Catch the train**: 11%
- **Cycle**: 7%
- **Walk**: 11%

**Top Priorities for Government**

**Members feel it’s most important\(^3\) for government to act to:**

- Ensure public transport is affordable: 80%
- Reduce deaths and serious injuries on our roads: 76%
- Make public transport more convenient and reliable: 76%

**Where we live impacts our priorities**

- 78% of regional respondents want action to reduce deaths and serious injuries on our roads
- 84% of metropolitan respondents who drive in peak hour five days a week want action to reduce traffic delays on our roads

**As does how we travel**

- 85% of regular peak hour drivers\(^4\) want action to ensure public transport is affordable

\(1\) 474 from the Perth and Peel region, 151 from regional WA and four members currently outside WA. Age, gender and location sampling quotas were applied, and data has been post-weighted to be representative of RAC’s membership (which is broadly consistent with the WA population profile) – the margin of error at total sample level is +/-4% at the 95% confidence level.

\(2\) Responses sum to more than 100% as respondents may nominate more than one mode of travel. For instance some members park and ride at train stations to get to work/study. Other travel modes typically used by less than 7% of members have not been included in this graphic.

\(3\) Based on respondents who said it is very or extremely important.

\(4\) Those who drive five days a week or more in peak period traffic.

\(5\) Those who use public transport at least a few times a week.
