No material change to the current nature of the loan portfolio and the overall approach to lending.

RAC Finance generally restricts exposure to any single borrower to \$7.5m, although in certain circumstances particular borrowers may be approved for higher limits.

Where a loan is to be used to purchase property, a motor vehicle or other significant assets, these loans will predominantly be secured by way of a registered encumbrance, mortgage or charge.

RAC Finance considers a loan to be in default/arrears when a payment is 30 days overdue. This does not mean that RAC Finance takes no action prior to this point.

Loans in arrears are managed on an individual basis. For defaulting loans covered by the National Consumer Credit Protection Act 2009 (NCCP) and the Uniform Consumer Credit Code 1996 (UCCC), there is a legal requirement to give the debtor 30 days' prior notice of enforcement. For all other loans (eg. chattel mortgages, mortgages), seven days' notice of enforcement is required. Impaired loans are suspended and provisioned where there is doubt of full recovery.
