Renting A Car

IN SOUTH AFRICA

When selecting a rental vehicle, take into consideration where you will be travelling, how many people will be travelling in the vehicle, luggage size and the kind of driving you intend to do. DriveAway Holidays offers a vast range of vehicles from small economy sizes to larger full-sized cars, 4WDs, convertibles and luxury vehicles. The ACRISS system below will help you find a car that suits your needs. This is an internationally recognised code which will ensure you get the same standard of vehicle wherever you rent.

Collecting at an Airport in South Africa

At most airports in South Africa you will find your rental company has a desk in the arrivals hall, with the rental cars being located within walking distance. However, at smaller airports you may be required to collect your vehicle from a downtown depot. A courtesy transfer will be provided from the airport to the depot in this instance. DriveAway Holidays offer all-inclusive prices which generally include any location / airport fees and charges that may otherwise apply. Remember to check at time of booking to ensure your rental will include all airport fees.

Renting A Car

FREQUENTLY ASKED QUESTIONS

Do I need a credit card?

Yes. A credit card will be needed when collecting, which will be used for a security bond. The deposit is generally the insurance excess of the rental car which depends on the category of vehicle you have booked and the rate type.

Can I choose between automatic and manual transmissions?

Both automatic and manual vehicles are available in South Africa. Automatic vehicles are generally more expensive than manual cars and may be scarcer at smaller depots.

Can I collect and return my car hire at different South African cities?

Yes, this is certainly possible. In some cases there may be a one-way fee charged by our suppliers when you collect your rental car. DriveAway Holidays will advise you of any additional fees before you travel.

Can I collect my rental car in South Africa and drop it off in another African nation?

International one ways are sometimes possible however, as with any international one way, this will incur a one way fee. Prices vary depending on the supplier, the length of the rental and the drop off destination.

Can I visit any of the countries surrounding South Africa and then return my car rental to South Africa?

This is possible. In most cases, travel to Botswana, Swaziland, Lesotho and Namibia is permitted, but this will usually incur a cross border fee, plus you must have a letter of authority which you can obtain from your car rental supplier. If you do not have the letter of authority you may be refused entry at the border crossing.

Travel is generally not permitted from South Africa to Angola, Malawi, Zambia, Zimbabwe or Mozambique. Luxury vehicles are not permitted to leave South Africa. Advise DriveAway Holidays when you book to obtain any extra charges or requirements.

Insurance

EVERYTHING YOU NEED TO KNOW...

Car Rental Companies in South Africa will normally include:

- > Third Party Insurance: Compulsory insurance and will be included in your car hire price. This covers you for other people's injury and damage to their vehicle.
- > Collision Damage Waiver (CDW): This limits your financial liability for damage to the rented vehicle and is normally included in prepaid car hire prices. Rentals are normally subject to liability excess, which can be reduced at the time you collect your rental car or by taking out **DriveAway Hire Car Excess Refund Protection**.
- > Theft and Loss Cover: This limits your financial liability for the loss or theft of the rented vehicle and is generally included in the prepaid car rental price.
- > Fire and Liability: Limits your financial liability for bodily injury or death and is normally included in the prepaid car hire price.
- > Personal Accident Insurance: This covers the driver for personal injuries and is generally not included in your car rental rate. It is considered an optional extra that you can take out upon collection of the car.

DriveAway Hire Car Excess Refund Protection

When renting a vehicle, the rental rates include basic insurance, however, in the event that the vehicle is stolen or accidentally damaged, there is usually an excess amount which the driver is liable to pay to the rental company. To avoid any unexpected costs opt for DriveAway Hire Car Excess Refund Protection which will offer a reimbursement for the supplier's damage and theft excess to a maximum for AU\$5,000. Simply add this onto your car rental booking prior to departure and you could save thousands of dollars in the long run! Driving

IN SOUTH AFRICA

- Drive on the LEFT side of the road and overtake on the right. The driver sits on the right hand side of the car.
- Don't drink and drive. The maximum blood alcohol level is 0.05% and drivers can face hefty fines or imprisonment so be smart, don't drink and drive.
- Although petrol stations are common in South Africa's cities, in many rural areas petrol stations may be scarce so be prepared and keep an eye on the fuel gauge.
- Map your route carefully. In some rural areas you may come across areas of gravel roads, so proceed with caution especially if you are unfamiliar with driving in these conditions. Most car rental suppliers will not permit travel on unpaved roads unless you're driving a 4WD so check with DriveAway Holidays when you book.
- Traffic lights are known as 'robots'. Be careful at traffic lights even if they are green. Some drivers will jump the opposite red light so check for other traffic before moving off.
- Don't feed animals from your car – baboons are quite common along Cape Town's scenic routes.
- Keep your headlights on during the day, especially on country roads.
- Current information on the condition of roads can be obtained from the Automobile Association of South Africa.

Driving Laws in South Africa

- It is compulsory to carry your driving license with you at all times in South Africa.
- South African petrol stations are not self-help: an attendant will fill the car. When it comes to paying for fuel, you can pay cash or use your credit card.
- At traffic lights, a continuous red arrow on the left means that you are able to turn in that direction as long as there is no other traffic in that direction. A continuous green arrow means that you are able to proceed with caution in that direction.
- It is illegal to use a hand-held phone whilst driving, so use a vehicle phone attachment or a hands free kit when you want to use your mobile while driving.
- Wearing a seat belt is compulsory, in both the front and back seats.

Licence Requirements

A full driving licence is required to drive in South Africa. All drivers must have held a full valid driving licence for a minimum of two years. Holders of Australian State and Territory Driving Licences are required to hold a international driving permit to drive in South Africa. To obtain an International Driving Permit please contact the relevant IDP authority in your state. Please note that an International Driver's Permit is not a licence - you must also have a current Australian licence.

Driving

IN SOUTH AFRICA

Min & Max Age Requirements

Min Driving Age: Usually 21; however in some regions the minimum age is 25.

Young Driver's Surcharge: Drivers aged 21-22 years may be charged from ZAR100 including tax per day, paid locally.

Max Driving Age: Maximum driving age in South Africa is generally 75. Usually PAI (Personal Accident Insurance) is only applicable to renters up to 75 years. In some cases, aged drivers may be required to hold a letter from their GP stating they are healthy and fit to drive. Check with DriveAway Holidays for further details.

Child Safety

Children under the age of 12 years of age should ride in the back seats of the vehicle wearing a seatbelt or using an appropriate child seat.

Parking

Parking spaces are not common in bigger cities in South Africa, and often there will be parking attendants present who sell parking tickets. A solid yellow line means no parking; a solid red line means no stopping. You must park with the front of the car facing the same direction as the flow of traffic. Heavy fines will result from illegal parking.

Road Tolls & E-Tags

There are a number of South African National Roads where tolls exist. Tolls are payable by cash or credit cards (South African issued). In the Gauteng province a electronic tolling system is in place. Check with your car rental operator if the vehicle you are driving is equipped with a etag.

Encountering Wildlife

When driving in a wildlife reserve, ensure that you stick to the speed limit and stay within your car at all times. If you are travelling with a tour group, follow the instructions of the travel guide. When you are out and about in the game reserves, make sure you wear socks and boots that will protect you from snake and insect bites. If you want to swim in a river or lake in rural areas, check with the locals first as there may be crocodiles or hippopotamus. Most major beaches are protected with shark nets, but if you plan on swimming at a less populated beach it is best to check with local authorities first.

GUIDE TO STAYING SAFE

Stay Safe

Most regions of South Africa are relatively safe to travel but there are some regions that should be avoided. Be aware of card skimmers at ATMs. Try to avoid driving at night if possible, and don't leave your valuables in plain sight when you're driving your car, as smash and grab attacks have been known to occur at intersections. In the event of theft or loss, be sure to inform all your credit card companies as soon as you discover your wallet has been lost or stolen. Most credit card companies have toll free numbers to call if your cards are lost or stolen, and they may be able to issue an emergency replacement card or wire you an immediate cash advance

Stay Healthy

South African medical facilities are good in most urban areas but is often limited in more rural regions. The Australian Government does not have a reciprocal health care agreement with the Government of South Africa. Make sure that you have comprehensive medical insurance that includes cover for medical evacuation costs. Before visiting South Africa, you may need vaccinations and medications for vaccine-preventable diseases. For more information regarding your vaccination requirements, visit www.smartraveller.gov.au.

Malaria is a serious disease that can be contracted from the bite of an infected mosquito. Most parts of South Africa are malaria free, however it is present in some areas. You can avoid contracting malaria by taking a prescription anti-malarial drug from your GP before you travel, using insect repellent and sleeping in air-conditioned rooms or using a mosquito net. The rate of HIV/AIDS in South Africa is high, so ensure that you exercise the appropriate precautions if participating in activities. Tap water is safe to drink in major cities, whilst in rural areas it is safer to drink only bottled water or boiled tap water and avoid ice cubes. There is the risk of infection of Schistosomiasis or bilharzia so avoid swimming or paddling in stagnant or slow moving water.

Climate & Weather

South Africa is blessed with sunny and temperate weather for most of the year. The winter months are cooler and drier (June to September) and are great for outdoor pursuits such as hiking and wildlife watching. Between November and March, the summer months can be uncomfortably hot with rain and low-lying mists in the low fields bringing humid and sultry conditions.

Although the Christmas and Easter holiday break bring the peak of tourists from both South Africa and Europe, the ideal time to travel is Autumn and Spring when the weather is more mild and comfortable. Spring is also the perfect time to visit the Northern Cape where the native wildflowers carpet the National Parks.
