Renting a Car in Italy

When selecting a rental vehicle, take into consideration where you will be travelling, how many people will be travelling in the vehicle, luggage size and the kind of driving you intend to do. DriveAway Holidays offers a vast range of vehicles from small economy sizes to larger full-sized cars, 4WDs, convertibles and luxury vehicles. The ACRISS system on page 4 will help you find a car that suits your needs. This is internationally recognised code which will ensure you get the same standard of vehicle wherever you rent.

Automatic and Manual Transmissions

Yes, automatic cars are available in Italy, however they will be more expensive than manual cars and not as readily available as manuals.

Do I need a Credit card?

Yes. A credit card will be needed when collecting, which will be used for a security bond. The deposit is generally the insurance excess of the rental car which depends on the category of vehicle you have booked and the rate type.

Collecting at an Airport in Italy

At most airports you will find your rental company has a desk in the arrivals hall, with the rental cars being located within walking distance. However, at smaller airports you may be required to collect your vehicle from a downtown depot. A courtesy transfer will be provided from the airport to the depot in this instance. DriveAway Holidays offer all-inclusive prices which generally include any location / airport fees and charges that may otherwise apply. Remember to check at the time of booking to ensure your rental will include all airport fees.

What are ‘premium location’ fees?

Premium location fees apply when a vehicle is collected from an airport, railway or selected downtown locations. DriveAway’s car rental prices usually do include the airport or ‘premium location’ fees for car rental collections in Italy. Check on your prepaid voucher to ensure that this included.

Rental Vehicle Insurance

Your car rental supplier should already have comprehensive insurance covering their cars. In the case of an accident it must be reported to the insurance provider immediately and an excess will be due.

Car Rental Companies in Italy will normally include:

- Third Party Insurance: Compulsory insurance and will be included in your car hire price. This covers you for other people’s injury and damage to their vehicle.
- Collision Damage Waiver (CDW): This limits your financial liability for damage to the rented vehicle and is normally included in prepaid car hire prices.Rentals are normally subject to liability excess, which can be reduced at the time you collect your rental car or by taking out DriveAway Hire Car Excess Insurance.
- Theft and Loss Cover: This limits your financial liability for the loss or theft of the rented vehicle and is generally included in the prepaid car rental price.
- Fire and Liability: Limits your financial liability for bodily injury or death, and is normally included in the prepaid car hire price.
- Personal Accident Insurance: This covers the driver for personal injuries and is generally not included in your car rental rate. It is considered an optional extra that you can take out upon collection of the car.
DriveAway Hire Car Excess Insurance

When renting a vehicle, the rental rates include basic insurance, however, in the event that the vehicle is stolen or accidentally damaged, there is usually an Insurance excess amount which the driver is liable to pay to the rental company. To avoid any unexpected costs opt for DriveAway Hire Car Excess Insurance which will offer a reimbursement for the supplier’s damage and theft excess to a maximum for AU$5,000. Simply add this onto your car rental booking prior to departure and you could save thousands of dollars in the long run! To find out more, simply call DriveAway Holidays on 1300 723 972 or visit the DriveAway website.

Driving In Italy

Driving in Italy can be a wonderful experience, and in some cases it’s a pure necessity. Here are a few tips to help you acclimatise to Italian driving and help make your self-drive holiday the best that it can be.

- Familiarise yourself with the road signs and parking rules.
- Drive on the right hand side of the road. The driver sits on the left hand side of the car.
- Italian drivers are competent and fast. Don’t be daunted by aggressive driving, instead be confident and you’ll fit right in.
- When you collect your car rental, familiarise yourself with the car’s controls.
- The centre lane of a three lane highway is for passing or overtaking. Slower traffic drives on the right lane.
- Be cautious on narrow winding roads on routes such as in Cinque Terre and along the Amalfi Coast. Most of the small towns on these routes have little or no parking, some don’t permit cars at all so park your car outside of the towns and see the sites on foot.

Types of roads in Italy

- Autostrada: Motorways and freeways.
- Major Roads: Dual carriageways and highways with more than one lane in each direction and generally fast moving.
- Minor Roads: Narrow, winding roads with one lane in each direction and slower moving traffic.
- White Roads: Narrow, dirt or white gravel roads through the countryside. Known locally as ‘Strade Bianche’.

Driving Laws in Italy

- Drivers must carry proof of insurance, international and domestic drivers licence and registration papers at all times.
- Hefty fines can be issued for speeding offences, and police have the authority to collect fines on the spot. Speed cameras are set up in many places, so if you’re caught speeding the fine will be posted to the car rental company, who will then pay the fine with your credit card used at the time of collection.
- Children under the age of four must be seated in an approved safety child seat restraint, and children aged 4 to 12 years must be secured in a suitable child restraint while seated in the front seat.
- When driving on the Autostrada, you must drive with your headlights on.
- It is illegal to talk on a mobile phone while driving in Italy.
- Drink driving is illegal. The maximum blood alcohol level is 0.05, and DUI drivers can face hefty fines or imprisonment so be smart, don’t drink and drive.
- An emergency triangle must be carried in the vehicle at all times.
- Motorcyclist must wear a helmet.

Speed limits

130km/hr (80miles/hr) on highways (Autostrada), 110km/hr (68miles/hr) on highways when wet.
110 km/hr (68miles/hr) on dual carriageways, 90km/hr (56miles/hr) when wet.
90km/hr (56miles/hr) on open roads, 80km/hr (50miles/hr) when wet.
50 km/hr (31miles/hr) inside cities regardless of weather conditions.
Licence Requirements
An International Driving licence is required for Australian Drivers Licence holders. International licences can be obtained from motoring associations. Make sure that you take your Australian licence with you as well. Car rental companies will require that drivers have held a full licence for at least one year.

Min & Max Age Requirements
Min Driving Age: Generally 21 years but some suppliers allow drivers from 18 years.
Young Driver’s Surcharge: Drivers under 24 years may be charged an additional fee.
Max Driving Age: There is no maximum driving age in Italy with most car rental suppliers; however the max driving age for some car hire companies is 75 years. In these cases, aged drivers may be required to hold a letter from their GP stating they are healthy and fit to drive. Check with DriveAway Holidays for further details.

Road Tolls & e-Tags
The Autostrada system is privately owned, and drivers pay a toll to use it. You collect a ticket when you enter the Autostrada, and pay the toll once you exit. When you arrive at an entrance of the Autostrada, head to the gate marked Bigletto’ (ticket), rather than the Telepass or Viacard gate. When you exit you can pay the toll at the Bigletto cards with either cash or credit card.

Parking in Italy
Although parking may be hard to find in larger cities, everywhere else in Italy parking is relatively easy to find. In larger tourist areas there are numerous pay parking lots outside of the historic areas. Street parking is designated with signs, and coloured lines denote whether it’s paid or free parking. Blue lines indicate pay parking, where a ticket machine will be close by to purchase a parking ticket to display on the car dashboard. White lines or no lines indicate free parking. If the parking sign indicates that the parking time is limited you’ll need to display a parking disc on the cars windshield, which shows the time you parked. Parking discs are sometimes included in your car rental; if not they can be purchased from tobacconists. Ask for a “disco orario”.

Cinque Terre
Italy Car Rental FAQs

Can I visit another country outside of Italy and then return the car to Italy?
In most cases, travel to other countries is permitted but this depends on the type of vehicle rented and the country that you’re be visiting. Generally, luxury and prestige cars are not permitted into some Eastern Europe countries. Check with DriveAway Holidays for further details.

Can I collect my rental car in Italy and drop it off in another European country?
Yes you can, but be aware that an international one way fee will be charged upon collection. This is dependant on the country and the distance that country is from the collection point. DriveAway Holidays will advise you at the time of booking of any international one way fees.

Can I drive my rental vehicle on Cinque Terre?
Yes. There are some sections of the Cinque Terre where cars are not permitted, however when you do travel to Cinque Terre, park your car outside the towns and explore these places on foot. Drive with caution and confidence on this route, as the roads are winding and narrow, however with confidence and common sense this will be a brilliant experience.

What do I do if I want to extend my car rental whilst I’m in Italy?
Once the car rental has commenced you will have to call the depot where you initially collected the vehicle, and if the car is available to be extended, you will be offered additional days at the local rate.

Should I take out additional insurance on my car rental?
Rental rates will include basic insurance: Collision Damage Waiver (CDW), Third Party Liability and Theft Protection. In the event that your rental vehicle is accidentally damaged, regardless of who is at fault, or stolen, the Insurance excess is the maximum amount you are liable for. In Italy, the base amount of excess begins at €600.

Should I hire a GPS for driving in Italy?
GPS hire is available from DriveAway Holidays. Our rates include the GPS, travel guides and entertainer. The GPS is delivered direct to your home or travel agent before you depart. GPS units can also be requested direct with some suppliers, however this will be at their own rates. If time is short though, or you would simply prefer to collect your GPS unit together with your rental, then this may be an option for you.

Climate and Weather

The north of Italy is much cooler than the south. Summers are warm in the northern mountains and winters are very cold, producing the best snow and ski conditions in the early months of the year.

The southern tip of Italy dips into the Mediterranean Sea and has hot, dry summers, with winters being moderately temperate. In between, summers can be very hot in some regions due to the winds from Africa (Sirocco) and winters are cold, sometimes producing snow and rain.

Stay Healthy

Italian hospitals are public and offer free standard treatments for EU residents; however for non EU residence emergency assistance is given. A reciprocal agreement exists between Australia and Italy that provides Australian citizens with health care via the Italian Public Health Service. You need to provide your passport and possibly your Medicare Card. Pharmacies and chemists carry most prescriptions, however it can be expensive, so it’s best to have your prescriptions filled before you go, and carry these medicines along with a letter from your GP explaining your medical conditions.

Tap water is generally safe to drink, but avoid water where there is a sign ‘Acqua Non Potabile’ it means that the water is unsafe to drink.

Stay Safe

As with visits to other European countries, be vigilant for pickpockets and bag-snatchers who mainly operate in the main cities and on public transport. A money belt containing your valuables worn under your clothing is a good idea.

Keep your valuables out of view in your parked car to avoid potential smash-and-grab thefts. Don’t make yourself a target by showing off expensive jewellery and cash in public. Keep your money and credit cards in a safe place. Respect the local customs and laws. Try not to leave anything in your car that will tempt thieves.
