

# Convo Cards

These convo cards will help you start a conversation about independent travel with your child. If easier, print and cut out the cards to use as prompts.

What are your options for travelling to school? Which options are most convenient? Which options are safest?

How are you feeling about independent travel? Which parts do you feel comfortable with, and which parts do you feel uncomfortable with?

What are the benefits of independent travel? (Consider the benefits to yourself and the benefits to the family/ household.)

What are some hazards you may come across in your journey?

What concerns do you have about independent travel?

What adjustments will need to be made to the household's morning and afternoon routines?

What equipment will you need for the journey? What equipment will you need in hot/cold/ wet weather?

What are some signs a person or situation might be unsafe?

How can I/we support you with independent travel?

What can you do if you feel unsafe?

Where can I go/ who can I contact if I feel unsafe?

Are there any other kids from school you could travel with?
