

Back seat driver

Community Education Resilient Driver's Program

The driver and passengers in a vehicle have a responsibility to prevent crashes on our roads.

Remember the five main reasons people are crashing on WA roads:

1. Distractions
2. Speed
3. Alcohol/drugs
4. Fatigue
5. Seatbelts

The fatal five

1. Distractions

Never use a mobile phone when driving, be a good passenger by reading and replying to text for your driver.

2. Speed

Nobody is bullet proof, always stick to the speed limit. Tell the driver to slow down if they are driving too fast.

3. Alcohol/drugs

Never get in a vehicle with somebody who may be intoxicated, always have your back up plan. Learner and P plate drivers 0.00 BAC.

4. Fatigue

Look out for the warning signs of fatigue. Swap drivers if possible. Take frequent stops when on long journeys. Learners should pull over after 2 hours of driving and stop for at least half an hour.

5. Seatbelts

Never over crowd a vehicle. Make sure everybody has a seat belt. No doubling up. Penalties for drivers are a \$550 fine and 4 demerit points. Penalties for any person over 16 years \$550.

Fill in the attached back up plan card and keep it in your wallet.
